

ACES Aerosol Chemistry 2017 survey

Answer Count: 2

1. What was the best aspect of the course?

What was the best aspect of the course?

like in the aerosol physics course you felt welcome to the Luftlab crew. it was good to be able to talk to the people outside of the lectures instead of just by email.

Great lectures! Interesting and easy to follow. The final exam was good, not just focusing on calculation and equations.

2. What improvements would you suggest in the course?

What improvements would you suggest in the course?

More practical moments. knowing how stuff works i theory is good but it 's always nice to see the stuff for real.

The order of the lecture may need to be rearranged. For example, it might be better to have the lecture about Gibbs free energy and chemical potential before the nucleation one.

The corresponding chapters in the textbook for each lecture was not very clear.

3. What advice would you like to give to future course participants?

What advice would you like to give to future course participants?

Have fun and go to the lectures.
